THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT
Official Notification of Rights Under FERPA

Student education records are official and confidential documents protected by the Family Educational Rights and Privacy Act (FERPA). Educational records, as defined by FERPA, include all records that schools or education agencies maintain about students. FERPA affords students certain rights with respect to their educational records. These rights include:

1. The right to inspect and review their records. Students should contact the Office of the Registrar to determine the location of appropriate records and the procedures for reviewing such records.
2. The right to request that records believed to be inaccurate or misleading be amended. The request should be submitted in writing to the office responsible for maintaining the record. If the request for change is denied, the student has a right to a hearing on the issue.
3. The right to consent to disclosures of personally identifiable information contained in the student's educational records. Generally the College must have written permission from the student before releasing any information from the student's record. FERPA does, however, authorize disclosure without consent in certain situations. For example, disclosure without consent can be made to school officials with a legitimate education interest in the record.

A school official is a person employed by the institution in an administrative, supervisory, academic, research or support staff position; a person or company with whom the institution has contracted (i.e., an auditor, attorney or collection agency); contractors, volunteers, and other non-employees performing institutional services and functions; a person serving on the Board of Trustees; a student serving on an official committee or assisting another school official in performing his/her task. A legitimate education interest exists if the school official needs to view the education record to fulfill his or her professional responsibility.

Upon request, Morningside College will disclose education records, without consent, to officials of another school in which the student seeks or intends to enroll.

Morningside College may also disclose "directory" information without the student's prior consent. Directory information is defined as:

- Name
- Local and permanent addresses
- Telephone number(s)
- E-mail address
- Date and place of birth
- Major or field(s) of study
- Dates of attendance
- Grade level
- Enrollment status (FT/PT; undergraduate/graduate)
- Degrees, awards, and honors received and dates
- Expected date of completion of degree requirements and graduation
- Participation in officially recognized activities and sports
- Weight and height of members of athletic teams
- Most recent educational institution attended
- Photograph

Students have the right, while enrolled, to prevent directory information from being released. In order to maintain directory information as confidential, a student must sign a non-release form in the Registrar's Office by the end of the first week of the semester. This release restriction is effective for one academic year only and must be renewed each year. If a student requests non-disclosure of directory information in his or her last term of attendance, that request will be honored until the student requests its removal.

A student should carefully consider the consequences of a decision to withhold directory information, as future requests for such information from other schools, loan or insurance companies, prospective employers or other persons or organizations will be refused as long as the request for non-disclosure is in effect.

Students may indicate on CampusWeb that they would like non-disclosure of directory information, and all college personnel should honor this request. However, official notification of non-disclosure must still be made in writing at the Registrar's Office.

4. The right to file a complaint with the U.S. Department of Education concerning an alleged failure by the institution to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Ave. S.W.

SPRING SEMESTER 2017

Each student should meet with his/her advisor according to the advising schedule below to determine a schedule for the 2017 Spring Semester.

On the assigned date for registration (see registration schedule below) you will go into CampusWeb and enter your own registration, as determined by you and your advisor. Once you submit your registration, it will go to your advisor for approval or rejection. When you receive notice (via campus e-mail) that your registration has been approved, you may check your schedule for the 2017 Spring Semester on CampusWeb. If you are not allowed to register for an individual course, you should submit all other courses and then go to the Registrar's Office to add the final course(s). You may change your own registration on line as long as it is done during the designated times for your class. After that time you will need to go to the Registrar's Office.

****ADVISING AND REGISTRATION DAYS WILL BE DETERMINED BY CLASS STANDING. YOUR CLASS STANDING IS DETERMINED BY THE NUMBER OF HOURS COMPLETED AT THE TIME OF ADVISING AND REGISTRATION. THIS TOTAL CAN BE FOUND ON CAMPUSWEB.****

ADVISING SCHEDULE

October 3 & 4	Monday – Tuesday	Advising for Seniors (91 hours or more) & Early Registrants
October 11,12 & 17	Tuesday, Wednesday & Monday	Advising for Juniors (58 – 90.99 hours)
October 24 & 25	Monday – Tuesday	Advising for Sophomores (27 – 57.99 hours)
October 6 - November 7		Advising for Freshmen (26.99 hours or fewer)

**** Registration for Freshman begins at 6:00 a.m. November 8. Registration for Sophomores, Juniors, and Seniors begins at 12:01 a.m. the first day of your scheduled registration time. ****

REGISTRATION SCHEDULE

October 5 & 6	Wednesday – Thursday	Registration for Seniors (91 hours or more) & Early Registrants
October 18 & 19	Tuesday – Wednesday	Registration for Juniors (58 – 90.99 hours)
October 26 & 27	Wednesday – Thursday	Registration for Sophomores (27–57.99 hours)
November 8 & 9	Tuesday – Wednesday	Registration for Freshmen (26.99 hours or fewer)

On November 15 registration will be open to unadmitted students. New freshmen and transfer students may register on or after November 17. Post – Secondary and Senior Scholar students may register after December 6.

VALIDATION OF REGISTRATION, January 10

All students carrying 9 or more credits, including those registering on January 10, must complete all registration procedures. Any student not validating his or her registration by January 10 is required to pay a late registration fee. The validation process must be completed no later than January 18.

REGISTERED STUDENTS

Order of the validation process:

1. Students will locate posted lists to determine whether they will go through the express line or the regular validation line.
2. Students will report to the Olsen Student Center.
3. Present student ID and proceed through the validation process.

There will be no schedule changes made on Validation Day. Drop/add cards will be available at the Registrar's Office beginning January 11. There will be no charge for the drop/add cards. Any student not validating his/her registration by January 10 is required to pay a late registration fee.

STUDENTS WHO HAVE NOT PRE-REGISTERED FOR CLASSES

New students who have not pre-registered for the spring term may do so on January 10, 2017. Registration materials may be obtained in the Admissions Office, and there will be faculty available for assistance in scheduling. Upon completion of the registration form, materials **must** be returned to the Registrar's Office where pre-registration will be processed. Students enrolling for 9 or more hours will then proceed to the Olsen Student Center to the regular validation line. Registration will not become effective until the completion of this entire process.

Returning students who have not pre-registered will need to meet with their advisor as soon as possible, beginning January 10, to determine a schedule. Upon completion of the registration form, materials **must** be returned to the Registrar's Office where pre-registration will be processed.

NOTE: IN ORDER TO AVOID CLOSED CLASSES AND DELAYED PROCESSING, IT IS TO YOUR ADVANTAGE TO REGISTER DURING THE ADVANCE PRE-REGISTRATION PERIOD IN OCTOBER/NOVEMBER.

PASS/FAIL COURSES

The pass/fail option form must be filed in the Registrar's Office within the first week of the semester (by January 18, 2017). A student may elect no more than four hours of pass/fail per semester, nor exceed a total of 16 semester hours of pass/fail in a four-year degree program. No change from pass/fail option to letter grade may be made after Wednesday, January 18th.

Only totally "free" electives may be used in this option. This excludes all courses in major or minor areas, a cluster, the core or general studies requirements, professional courses, and any course required by the college or licensing agencies.

AUDIT

To audit a course, a student must have the signature of the instructor. The student must register for the course as an audit within the first week of the semester, or within the first two days of a summer session. Completion of a form (available at the Registrar's Office) will document the audit.

The audit option is available to encourage students to explore unfamiliar fields or to experiment with new interests. Audit enrollment in courses provides students the opportunity to attend a class as a noncredit participant. Audit courses may not be used in a major, minor, or cluster, general education requirement, or any other graduation requirement. They may be used only as electives. Students may not register to audit internships, tutorials, studio art, applied music, music ensembles, or other courses that, by their nature, are inappropriate for auditing, as determined by the college.

Students who audit a course are expected to attend a minimum of two-thirds of the class meetings, but are not responsible for papers, tests, or other graded assignments, nor will the instructor be expected to evaluate such work. For more information on the audit, consult the College Catalog.

An audited course is considered a part of the regular class load and may not be carried as an academic overload (more than 18 hours) without permission. If the audit course causes an academic overload, hours above 18 hours will be charged at the hourly overload tuition rate.

INDEPENDENT STUDY

Students capable of doing significant independent work may choose to pursue independent study. Independent study provides students with an opportunity to undertake a program of supervised reading, research, or artistic production not provided within existing courses. Independent study is open only to students who have attained junior or senior standing and have a cumulative gpa of at least 2.50. A maximum of one independent study in any semester, three in total, is permitted. Completed independent study papers must be presented at the time of registration. Late independent study forms will require an add/drop card.

INTERNSHIP

The internship is a course which provides students with the opportunity to apply previous classroom theory to practical situations. Internships are assigned from 1 to 6 credits and must be in the student's major or minor. A student may take more than one internship, but no more than 6 credits of internship may apply toward the 124 credit hours required for graduation. It is open only to those students who have achieved Junior or Senior standing. An internship form must be presented at the time of registration.

FINANCIAL AID

Students enrolled for six hours or more per semester may be eligible for financial aid programs. Both full- and part-time students must be formally admitted to Morningside College before receiving financial aid. For information on financial aid programs and application procedures, contact Student Financial Planning on the second floor of Lewis Hall or at (712) 274-5159.

REPEATED COURSES

A student may repeat a course more than once. Credits for that course, however, may be counted only once when figuring total hours toward graduation. See your advisor for information and the Registrar's Office for the necessary form.

FINAL EXAM SCHEDULE

Final examinations for the 2017 Spring Semester will be Wednesday - Tuesday, May 3 – May 9. Scheduled times for the examinations will be published at a later date.

GENERAL GUIDELINES FOR FINAL EXAMS

Final exams occur during the last few days of each semester. All classes should meet during the final exam period—even those in which no exam is given.

1. All final examinations must be given during the final exam period.
2. Instructors are not required to give final exams; however, the final exam class period must be used for class instruction or some other class activity.
3. Extra-curricular activities may not be scheduled during the final exam period. These activities include: athletic events, trips, dramatic productions, operation of the campus radio station, music recitals, faculty committee meetings, student organization activities, and other similar activities.
4. All classes scheduled at traditional times receive one exam class period during finals.

PREREQUISITES AND INFORMATION

Specific course prerequisites are listed; assumed prerequisites exist relative to a student's class standing (FR, SOPH, JR, SR) and are explained in the current catalog. The responsibility for meeting prerequisites rests with the student.

COURSE DESIGNATORS:

Sections 50-54	Evening courses
Sections 60-64	Graduate level courses
Sections 65-69	Graduate level evening courses

****The College reserves the right to change instructors or cancel or otherwise change courses should conditions require. However, every attempt is made to maintain this schedule as published.****

****In order to more evenly distribute students between various sections of courses, the college also reserves the right to move a student to a different section of a course provided there are no course conflicts. If a student has any other types of conflicts (i.e., work, athletic practice, music rehearsal, etc.), he/she will need to get approval from the Associate Academic Dean to maintain the original schedule.****

****Students are responsible for knowledge of the information contained in the College Catalog concerning degree requirements and regulations regarding registration and withdrawal procedures.****

MORN 102 Composition and Communication		
Section	Instructor / Time	Title / Course Description
01	Zink, Jeff TTh • 9:50-11:30	Green Capitalism: Possibilities and Pitfalls What is capitalism? What does it mean for capitalism to be green, or sustainable? Is this even possible, and if not, what do we do about it? We will explore these ideas and their implications for our world, and your future through critical reading writing, thinking and speaking.
02	McFarland, Brian MWF • 9:15-10:20	Why People Believe in Weird Things In this class we will go over a number of widely believed notions that have little to no supporting evidence. This includes topics such as astrology, the paranormal, and UFO's. Modern day issues such as the anti-vax movement and homeopathy will also be discussed.
03	Elder, David MWF • 9:15-10:20	Comics and Culture Comic books and graphic novels blend words and images to create a unique art form. Seen by some as trivial stories for children and by others as important vehicles for social commentary, the place of comics in literary and artistic circles has been debated for decades. In this course we will read, write, and talk about how comic books and graphic novels function in society. Through research, writing, and public speaking, we will explore the ways in which words and images can be combined to create effective arguments.
04	Blaine, Patrick MWF • 9:15-10:20	Drugs! Description: This section of CIC will explore the history of illegal drugs in the U.S. beginning with alcohol prohibition, moving through the War on Drugs, and ending with current debates on marijuana legalization. Issues of addiction and community impact will be covered, and students will write and speak on a range of related topics. Students will participate in debates where they may be expected to adopt a pro- or anti- stance on a wide range of contentious issues. Of particular concern will be the rhetoric used on both sides of historical debates. This course will utilize a number of media, from archival documentary films ("Reefer Madness"), to journalistic articles, and at least one feature film. Finally, students will develop their own research project and present on it at the end of the semester.
05	Molland, Shelley TTh • 9:50-11:30	The "Real Face" of Addiction Anyone who has in any way been touched by addiction or who is simply "addicted" to <i>Pokemon Go</i> will be drawn to this topic. The addictive powers of drugs, alcohol, tobacco, food, sex, gambling, shopping, and yes, even tanning will be explored. Is addiction a human failing or are the substances of addiction a means of filling a void of inner emptiness? We will look at the causes of addiction, case studies, and the road to recovery.

Course Schedule - Morningside College - Spring - 2017/20

06	McGaffin, Terri MWF • 10:30-11:20	Art Activism <i>"Art should comfort the disturbed and disturb the comfortable."</i> - Banksy This course will explore art activism. We will ask questions about the power of the image, the performance, and the protest. We will engage in research, writing and public speaking.
07	Claxton, Shannon MWF • 10:30-11:20	Romance and love in the 21st century: How technology has changed the way we date From the way we meet potential partners to the way we communicate within romantic relationships, technology has influenced the (American) dating culture. Through critical thinking, reading, writing, and speaking, this class will explore how technology (including online dating, dating apps, facebook, and texting) has changed (and not changed) romantic relationships.
08	Moore, Anni MWF • 10:30-11:20	Disease, discovery and disaster: Communicating science principles While few people read the original scientific articles, everybody has an opinion about scientific discoveries, disease outbreaks, or disasters. This class focuses on how to communicate science to different audiences, covering the principles of researching the subject, targeting the right audience, finding credible sources, and different methods of explaining the background and concepts. Books and articles from different popular science writers will be explored as examples.
09	Fuglsang, Ross MWF • 1:45-2:50	The Natural Enquirer: Science and/or Truth in an Age of Skepticism <i>"Men [and women] Love to wonder, and that is the seed of science."</i> ~ Ralph Waldo Emerson We live in a world that depends on science, technology, invention and innovation. At the same time it is a world that is increasingly skeptical of scientific "fact." The curious and the skeptical will have the opportunity to explore and research - for themselves - issues related to science and nature in order to discover what could be true about the world, and how scientific discovery informs and influences our lives.
10	Werden, Leslie MWF • 1:45-2:50	What's So Funny? An Investigation of Humor Abbott & Costello. Jerry Lewis. Jim Carrey. <i>The Onion</i> . <i>Saturday Night Live</i> . "The Daily Show." Amy Schumer. Tina Fey. Each of these cultural artifacts uses humor to appeal to an audience and, possibly, to sway public opinion. How does comedy work as a persuasive medium? Why are some things funny while some attempts at humor only infuriate listeners/readers/viewers? This section of CIC will investigate humor - its theories, its history, and its future. Sense of humor required.

11	Eastman, Marilyn TTh • 8:00-9:40	Brand.You The digital revolution has made it possible for anyone to create and share their story - just look at YouTube! While being a YouTube star might not be in your future, it is important to think
----	-------------------------------------	---

Course Schedule - Morningside College - Spring - 2017/20

		about how you cultivate how people view you - your brand image! This class looks at what branding is, explores how brands are created and reinforced over time, and asks that you work on creating your own personal brand. Over the course of the semester, you will work on research, writing, and public speaking skills to learn about this topic.
12	Tinklenberg, Jessica TTh • 8:00-9:40	Sci-Fi Society Science Fiction television has long helped us imagine our future, but shows in this genre give us insight into the politics of race, gender, and culture today, too. Through discussion, reading, writing, and viewing of sci-fi TV shows this course will invite students to boldly go beyond seeing television as mere entertainment to recognizing the ways it helps construct our society and ideals as well.
13	Schnieder, Jeremy TTh • 9:50-11:30	Human? According to dictionary.com , human is “a human being.” Gee, thanks. What makes us human is difficult to pin down to say the least. However, the way it’s defined has significant implications on many controversial topics and policies. Through critical thinking, reading, writing, and speaking, we will seek our own definitions human within a greater context.
14	Trizeenberg, Christina TTh • 1:45-3:25	The Search for Meaning in Life What makes a life meaningful? A successful career? A loving circle of family and friends? Service to one’s community or country? The search for meaning in our lives is a universal and personal challenge that each of us must resolve over time. This class will use fiction/nonfiction to explore how others search for meaning and to find templates for our own journeys. Students will research and write a biographical essay about the life journey of a historical or contemporary figure, complete an oral history project (including an interview the member of an older generation), and reflect on their own life journeys through a variety of other written, oral, and multimedia assignments.
15	Reid, Heather TTh • 1:45-3:25	The Olympic Games Description: In this course, we will develop skills in research, writing, technology, and speaking by examining the ideals and realities of the Olympic Games. We begin by seeking to understand the personal, educational, and political ideals of Olympism, then we examine the historical and contemporary reality of the games from the perspectives of athletes, spectators, and society at large. Based on these accounts, we evaluate the Games’ success and failure with respect to those ideals. In the final paper, we will develop constructive solutions to the problems we identify, suggesting practical ways to revise the Olympic ideals and/or improve Olympic reality.
